Sir:

Pursuant to Rules 56 and 98, Applicants hereby call the attention of the Patent Office to the reference listed on the attached Form PTO SB08. The reference is a machine translation of JP 2000-178704 obtained today by the undersigned.

In the Amendment of March 23, 2009 Applicant asserted T1 and T2 of JP 2000-178704 were tempers T1 and T2 because this is what they appeared to be in view of the Abstract describing ageing condition T1 and ageing condition T2. However, today in preparation for an interview today with the Examiner the undersigned obtained the machine translation concurrently filed with the present IDS. As discussed at today's interview the machine translation at paragraphs 0023-0027 appears to disclose T1 and T2 are ageing treatment times.

Applicant certifies the reference was obtained within the past three months and is merely a machine translation of a reference already of record. Thus, it is respectfully

submitted no fee is necessary for consideration of this translation. However, if a fee is deemed due please charge it to Deposit Account No. 141437.

Respectfully submitted,

/anthony p venturino/
